School Based Services
Letter # A - 3

Dear Provider:

The Department for Medicaid Services would like to clarify a few of the field locations for electronic billing information needed to bill School Based Service claims using the National Standard Format (NSF). The attached bulletin informs submitters of the appropriate field locations of modifiers, the Employee ID and number of students on the NSF for claims with dates of services prior to 10/16/03 and 10/15/03 and after.

The Health Insurance Portability and Accountability Act (HIPAA) require an electronic biller to use HIPAA compliant electronic format to submit claims. The 837 Professional format is the HIPAA compliant electronic format that should be used to submit claims via vendor software or a clearinghouse. All submitters using the NSF are strongly encouraged to implement system changes that will ultimately enable them to submit an 837 Professional file to Unisys.

The acceptance of the NSF electronic format will soon become obsolete, please inquire about changes today.

Should you have any questions, please contact Unisys' EDI Department at (800) 205-4696.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Fendley", with a stylized flourish at the end.

Russ Fendley
Commissioner
